## CHEMICAL WORKERS PLEDGE PRODUCTION INCREASE

Workers of the "Farmakon" Chemisopharmaceutical Factory have resolved to reduce raw material expenditures in order to save one million rubles in 1949. They also expect to complete their established norms without requisitioning any supplementary raw materials. They have pledged to save 400 tons of raw material and 25,000 liters of alcohol.

Workers of the Nizhnetagil'sk Medical Instrument Factory in Sverdlovsk have completed first-quarter plans some 10 days ahead of schedule. In March, the entire plan for the manufacture of medical and surgical instruments was completed. Total March production was 250,000 rubles above established norms.

Works of the Penzen Disinfectants-Chemical Equipment Factory have adopted Stakhanovite methods. The first-quarter plan was completed on 17 March 1949.
